NGK DONATION

NGK Spark Plugs (UK) Ltd distributors have rallied round to help the relief effort following the recent tragic earthquake and tsunami that hit Japan, where NGK's parent company is based.

David Bennett, of Bennett's, part of the Independent Factors Association, and Robin Parker, Chairman of the Rapid Group, have both made substantial donations on behalf of their organisations to NGK Spark Plugs (UK) Ltd management to pass on to the Japanese Red Cross to help deal with the aftermath of the disaster that hit north-eastern Japan last month.

David is pictured (centre) handing over a donation to Kaz Hasegawa (left), Managing Director of NGK Spark Plugs (UK) Ltd, and Brian Childs (right), Deputy Managing Director, at NGK's UK headquarters at Hemel Hempstead.

While Robin (right) is shown presenting a cheque to Martin Pring, General Manager – Sales and Marketing, NGK Spark Plugs (UK) Ltd, at Parker's premises at Leicester.

Brian Childs said: "We are extremely grateful to receive the support of our valued customers to help deal with what has been a terrible natural disaster to hit Japan. Our heartfelt thanks go out to them for helping the Japanese Red Cross and the Japanese people."
